1 Summary of the event

The purpose of deliverable 7.6 was to organize a one day public dissemination event targeting a large audience and focusing on the future of Pure Plant Oil as local fuel.

This one day seminar took place in Lyon on January 26th, 2010 and was organised by Rhônalpennergie-Environnement together with local partners: FRCUMA, Rhône-Alpes Regional Council, Great Lyon, Ville de Lyon.

This one day seminar was held in the Greater Lyon premises in Lyon, France and gathered more than 100 participants (see below the detailed list).

The programme (see below) included two sessions: one morning session presenting local efforts in France and especially about working locally in short circuits, the afternoon session focusing on the ongoing development about PPO at European level and this in relations with the 2nd Veg Oil European project.
